INTERNATIONAL

SPECIAL INVITATION FROM YUAN TZE

The year 2020 is destined to be the start of an era that is extraordinary and tumultuous, with many challenges and crises yet ahead. It is also a special era for individuals, and humanity as a whole, to start the process of great awakening and transformation.

So far, in 2020, you may have already gone through a lot, and much of these are things you would rather have not experienced. Looking around, you can still see challenges of all sorts. Looking forward, you may fall into a sense of loss and helplessness, and feel hopeless.

All these 'unfortunate' occurrences and events will be around and will continue to pose as challenges for some time. The way we live with them is, therefore, of utmost importance if we wish to gain inner peace and joy and, at the same time, help address their causes. If you have been disturbed by what is happening and are feeling stressed, worried, anxious, panicked, fearful, angry, painful, or in despair, it is then crucial to take it seriously.

We live in a unique era with extraordinary potential for humankind to make a dramatic shift. We can transcend and rise to a new level. The challenges we face provide rich opportunities for us to do so. But only if we are willing to truly see and learn from the situation we are in and begin to develop and be guided by wisdom so that we may live in harmony with the world.

The nine-day retreat in November is a very special opportunity. Throughout the nine days, I will guide you to experience a new level of heart-to-heart transmission between you and me. A very powerful Qifield will help deepen your learning and understanding, and enable you to access and apply wisdom to more effectively deal with the challenges we, humanity, now face.

Apart from answering participants' questions and using that as a way to learn, the teaching will center around addressing some commonly asked questions related to the challenges, including:

1. The pandemic is not going away any time soon. Are you feeling worried because it is hard to see the end of it?
2. Are you finding it difficult to decide whether you and your family should be vaccinated?
3. Are you feeling more and more confused and lost seeing how the world is becoming increasingly unstable and unpredictable?
4. Are you worried about your job or your career prospect? Are you worried about your financial situation, your future income? Are you worried about your family's health and future?
5. Are you worried about how the world is now? Are you worried about the direction of your country, of the world in general, especially in relation to important political developments? Do you wish to transcend this? If you do, how do you go about achieving this?
6. Are you worried about humanity speeding up the movement down the path of self-destruction?
7. Are you spending more and more time searching for, reading or even engrossed in all kinds of information and consequently feeling negative and finding it difficult to get out of it?
8. (Hypothetical question) How would you feel if your life or the world was going to end perhaps in the not-too-far-away future? How would you deal with that?
9. Now that the world is facing more and more disasters, are you feeling confident in achieving growth and fulfilling the true purpose of your life?
10. What do you think is the biggest obstacle that is in the way of your progress to returning to your True Self?

If any of the above pose a challenge to you, it is necessary to face them and work through them. This is a gift the universe is presenting us. Let's make good use of this precious opportunity. Through an amazing process of knowing and changing ourselves, we will not only regain peace and joy, but also make progress in developing realization and wisdom. This is also the way to become truly aligned with the uplifting force of the Universe.
